In House Grading Process

Amgad Inc. has prepared this certificate of authenticity for Stock #: J792, for sale purposes only.

The main objective of this Certificate is to help customers gain a better understanding of color diamonds by using a PANTONE reference color.

In order to prepare the certificate for each stone, a representative of Amgad Inc. records the following:

1) 4 C's
   a. Cut – The Shape of the Stone
   b. Color-
      i. For White/Clear Diamonds color range is based on a D-Z grading
      ii. For color diamonds (i.e., Pink, Green, Yellow, etc.) color is based on 4 factors:
         1. Hue-Main & Modifier Colors
         2. Saturation-Intensity/Strength of Color
         3. Tone-Degree of Darkness or Lightness
         4. Pantone Reference color using the SKU # of matching color swatch
   c. Carat Weight-Unit weight
   d. Clarity-Inclusion/Blemishes within the stone. Based on the certain characteristics.
